

Banana Dananace

Score by Sean Thomas Boyt
STBDancing.com

Preparation

- Locate and rent stage (IMPORTANT)
- Arrange 1-100 banana peels neatly spaced on stage
- Carry 2 or more unpeeled, uneaten bananas in pockets, knapsack, or wagon
- Dim lights

Directions (can be done in groups!)

1. Slowly peel the first banana from bottom to top (like monkeys do) with right hand
2. Push peeled banana into side of face/cheek with left hand
3. Allow moist banana to smush as it establishes contact with the skin
4. Repeat with each banana, alternating sides of the face.

Clean-Up

Kick/slide each banana peel off stage ala field goal. Refrain from slipping, as that would be too obvious of an end.
